

ANDREW PRIDE, P.Eng. LEED® AP
Vice President,
Minto Green Team
Minto Group Inc.
energy@minto.com

Andrew Pride has more than 20 years of experience in the energy management and sustainability field. As vice president of Minto's Green Team, Andrew leads a group of professionals who provide insight and guidance on award-winning, sustainable design strategies for Minto's real estate portfolio.

Andrew spearheaded several of Minto's environmental achievements including the first LEED® multi residential certification by the Canada Green Building Council (CaGBC). MintoRoehampton is the first and only high-rise multi-residential building to achieve LEED®-Gold Canada. His other environmental achievements include a LEED®-Gold Candidate office building at 180 Kent Street and Minto's Inspiration House, the highest rated LEED®-Platinum project in Canada (an EQUilibrium Net Zero single family home).

Andrew has been a presenter and keynote speaker at numerous conferences in Canada and the USA on energy efficiency and sustainable design. He also sits on various boards and committees. He is vice-chair and director of the board for the CaGBC and has chaired the group that brought the US Green Building Council's LEED® for Homes program to Canada. Andrew is also a director of Globe, a subsidiary of Social Housing Services Corporation.
